# AQMD Update

4/18/25

Good afternoon,

Steven and I attended and spoke out in an AQMD hearing today expressing opposition to the amended rules 1111 and 1112. The hearing ran from 10:30a till about 12:45p These rule changes can prevent the purchases or manufacturing of natural Gas appliances. In their presentation they talk about job creation being in the hundreds, I commented on how the socioeconomic impact is much larger than that with the removal of natural gas appliances like water heaters and space heaters. The thousands of our members employed by SoCal gas could very well see a downsize in jobs with the downsize of natural gas appliances. This means thousands of jobs at stake, and we will not sit idle in silence if the livelihood of our members is on the line. Voting to pass these rules will take place in June. I urge everyone to voice their opinions and research the impact of these changes.
