

Joint Steering Committee Communication

7/28/25

Dear Brothers and Sisters,

The Union has been notified that some members have been identified as occupants of positions where layoffs are being implemented. We understand the difficulty this process might breed. We encourage everyone to schedule testing available, familiarize with provisions outlined within Article 7 of the CBA, and be diligent in looking for possible positions you may be interested in. As always please reach out to your Union Local leadership if you have concerns, especially those members who have been advised/identified to be subject to Layoff.

In solidarity,

The Union Leadership
